

play, Applicants retaining the right to file claims in a continuation or divisional application to that non-elected subject matter. As the claims 1-11 now exclude the single basis for attempting to distinguish claims 1-11 from claims 21-27, the restriction requirement is now in error.

Claims 1-11 should also be examined on their merits.

### **IN THE CLAIMS**

**Please amend claim 1 as follows:**

1. (AMENDED) A method of playing a wagering game, comprising:  
Providing one or more decks of standard playing cards;  
A player placing a first wager on a first game segment against a dealer;  
A dealer dealing one card to each player and a same number of cards to the dealer,  
forming player and dealer hands;  
Resolving the first wager by comparing a total point value of the player and dealer hands,  
and awarding a payout to the player if the player hand beats the dealer hand;  
A player placing a second wager on a second game segment;  
A dealer dealing additional cards to each player, a total number of cards held by each  
player and the dealer when combined with the previously dealt cards not to exceed  
six to participate in a second game against the dealer, wherein the second game is  
selected from the group consisting of blackjack and baccarat;  
Resolving the second wager using standard rules of the selected second game;  
A player placing a third wager on a third game segment;  
A dealer dealing only each player additional cards, if any, so that all players hold six  
cards;  
Resolving the third wager by comparing each player's hand to a pay table; and
